West Coast Gasket capabilities encompass commercial to precision tolerance rubber, sponge and plastic extrusions in virtually any design, with the ability to make simple and complex shapes from a wide variety of materials.

Whether providing an existing profile or helping you with a specialized design, West Coast Gasket is ready to assist you in prompt turn-around, and scheduling, with low tooling costs to meet your needs.

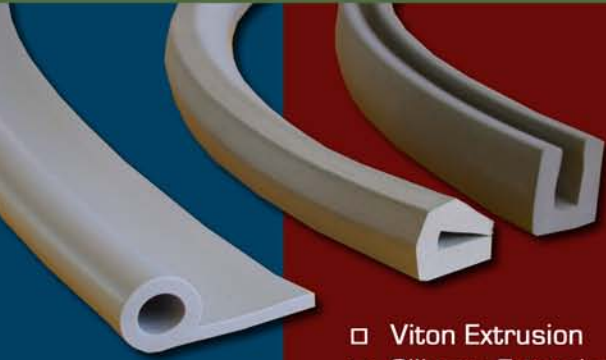

All equipment is computer controlled for accurate, repeatable product quality. Available in continuous coils, or in straight lengths, West Coast Gasket can apply PSA to your profile.

Extrusions can be cut to precision lengths to within $\pm .005$ ".
